SUBJECT: Completion of the 2013 Miccosukee Water Quality Standards triennial review.

Dear Mr. Meiburg:

The Miccosukee Tribe of Indians has completed the 2013 triennial review of the "Miccosukee Environmental Protection Code, Subtitle B: Water Quality Standards for Surface Waters of The Miccosukee Tribe of Indians of Florida." As part of the triennial review process, a notice of intent was made available to the Miccosukee community and published in the Miami Daily Business Review on June 07, 2013. A public meeting was held as scheduled on June 27, 2013 at the Miccosukee Government Center. Throughout the triennial review process no written or verbal public comments were received and the Tribe has not proposed any changes or revisions to the previously approved water quality standards. The Miccosukee Business Council approved a final action to close the 2013 triennial review on July 03, 2013.

I wish to thank the Region IV staff for their assistance with the triennial review. If you require further additional information please contact me directly at (305) 223-8380, extension 2241.

Sincerely yours,

James M Erskine
Water Quality Control Officer
Miccosukee Tribe of Indians
